Bucks (to wit).—*To Her Majesty's Justices of the Peace assembled at the* GENERAL QUARTER SESSION OF THE PEACE, *to be holden at* AYLESBURY, *in and for the said County, on* MONDAY, *the* 1*st Day of* JANUARY, 1872.

THE ANNUAL REPORT

OF THE COMMITTEE OF VISITORS ELECTED AT THE EPIPHANY SESSION, 1871, FOR THE PURPOSES OF THE LUNATIC ASYLUM AT STONE, FOR THE PAUPER LUNATICS OF THE COUNTY, UNDER THE STATUTE 16TH & 17TH VIC., CAP. 97, SS. 22 & 62.

SHEWETH,—That your Committee report in the terms of the Statute that the "State and Condition" of the Asylum have been satisfactory throughout the year, and the accommodation is now sufficient and proper for the number of Patients.

The conduct and efficiency of the several Officers and Servants continue to be satisfactory, and no change amongst the Officers has taken place during the past year.

The full number of Patients on 22nd December, 1871, the day of the last Meeting of your Committee, was as follows :—

	M.	F.	Total.
County Patients	134	201	335
Out County Patients	1	4	5
Private Patients	6	3	9
Gross Total	141	208	349

The number of *County* Patients in the Asylum at the corresponding period of the year 22nd December, 1870, was 344.

The number of Patients admitted since the commencement of the year has been,—

	M.	F.	Total.
County Patients	29	42	71
Out County Patients	0	0	0
Private Patients	4	3	7
	33	45	78

The amount per head per week charged to the Unions in the County having Patients during the four quarters has been at the rate of 9s. 4d. during the first three quarters of the year, and of 9s. 11d. during the last quarter, being a small increase of charge as compared with that made for the year 1870.

There are now only *Five* Pauper Patients in the Asylum who do not belong to this County, and the increase in the Weekly Rate of Maintenance of the Patients is attributable in a great degree to the withdrawal from this Asylum of the Patients belonging to Counties other than this, and also to the increase in the price of provisions.

The following is a Table showing the cost of the maintenance :—

TABLE SHOWING THE COST OF MAINTENANCE.

Column 1 contains the Cost of Provisions consumed by the Patients.
,, 2 the Cost of the Fuel and other Necessaries.
,, 3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the Receipts of the Establishment
,, 4 the Amount of Salaries of Officers and Servants, and Cost of Provisions consumed by them.

NOTE.—The Receipts for the Quarter ending 16th December, 1871, exceeded the Cost under Column 3 by £85 11s. 2d.

Your Committee subjoin a Summary, showing the number of Patients at the end of each year since the opening of the Asylum up to the 22nd of December, 1871 :—

YEAR.	MALES.	FEMALES.	TOTAL.
1853	62	95	157
1854	73	97	170
1855	82	113	195
1856	80	115	195
1857	95	118	213
1858	116	134	250
1859	112	143	255
1860	108	135	243
1861	120	146	266
1862	129	145	274
1863	133	153	286
1864	129	150	279
1865	137	164	301
1866	132	191	323
1867	136	190	326
1868	143	212	355
1869	181	240	421
1870	186	240	426
1871	141	208	349

Two of the Commissioners in Lunacy, Mr. Campbell and Mr. Cleaton, visited the Asylum on the 23rd day of November last, and the following is a Copy of their Report upon that occasion :—

Bucks County Asylum,
23 Nov., 1871.

We have inspected this Asylum in all its departments, and have personally examined every Patient, except 1 man and 2 women away on probation. The present numbers on the books are 142 men and 213 women, total, 355, leaving 40 vacant beds in the male, and 22 in the female division.

There are only 5 Patients here at present belonging to Out

County Parishes, and 8 Patients of the private class. The following are the changes since the last visit in May, 1870:—

	M.	F.	Total.
Admitted	62	79	141
Discharged	67	80	147
Died	34	29	63

The deaths were all from ordinary causes, but in two instances the Patients, who were epileptic, were found dead in bed. In these cases Inquests were held, and also in that of a man who had fractured the neck of the thigh bone, an accident which it was found, however, had not accelerated his death. Of the Patients seen by us to-day, the proportion in bed was very small; and, allowing for the rather numerous cases of paralysis and epilepsy, the general health of the Inmates seemed good. Under medical treatment last week there were 10 males and 22 females.

There have been no structural alterations since the last visit, but an important addition of 27 acres has been made to the estate, affording ample means for agricultural employment for the men, of whom 31 are occupied in this manner. Of the women, 25 work in the laundry and washhouse, and 91 at needlework and ward cleaning. Owing to the use of a sewing machine, nearly all the men's clothes are now made here, but only three of the men work as Tailors, and there are three Shoemakers, by whose labour about half of the necessary stock of shoes is made.

The attendance at Chapel comprises 70 men and 83 women on Sunday, and 21 men and 54 women on Wednesday. The usual arrangements are made to provide associated recreations, which are frequent, and attended by about 100 Patients of both sexes.

As we passed through the wards the Patients behaved in a very orderly manner, and only one of them (a woman admitted last night and much excited) was in seclusion. The Patients reported to have been secluded since our visit in May, 1870, are 10 in the male and 13 in the female division, the former on 20 and the latter on 80 occasions. Of these instances 45 were applicable to one woman only, and 15 to another. The clothing was satisfactory as to cleanliness, but we should have been glad

to find a larger number of the women dressed in gowns of some woollen material. All the bedding was good and ample, and very well attended to. Owing to the reduction in the numbers, the Staff of Attendants is now proportionably large, amounting, exclusive of the head and night attendants, to one for twelve Patients in the male, and one to thirteen in the female divisions.

Adverting to the matters specially referred to in the last Report, we find on enquiry that, with the object of providing a bath of clean water for each Patient, some of the baths have been altered, and a more rapid flow of water both in emptying and filling the baths has been secured. We hope this improvement will be effected throughout the wards.

Some of the forms without backs have been fitted with iron reversible backs, and it is proposed to alter others in a similar manner.

The washing accommodation in No. 14 has been doubled.

The stock of periodicals has been increased. The Attendants are now allowed board wages whilst absent on their holiday. Female Attendants have not yet been employed in the male infirmary wards.

The weekly charge for Buckinghamshire Patients in the present quarter is 9s. 11d., having previously been 9s. 4d. This increase no doubt arises from the diminution of the numbers by the removal of Middlesex and Oxfordshire Patients. The few remaining Out County Patients pay 14s. a week, and the charge for private cases ranges from 12s. to 21s.

We are glad to be able again to record our opinion that the Asylum is throughout in very good order, and that the treatment of the Patients is kind and judicious. The condition of the Institution continues to reflect much credit on Mr. Humphry, as Medical Superintendent.

(Signed)

W. G. CAMPBELL, } Commissioners
JOHN D. CLEATON, } in Lunacy.

Burial Ground.

Referring to the last Report of your Committee, a piece of Ground, containing one rood and thirty poles, at the northern end of the Land recently purchased, has been enclosed with a Stone Wall, and set apart as a Burial Ground for the purposes of the Asylum ; on the 2nd of August last it was consecrated by the Lord Bishop of the Diocese, and three Interments have since been made in it.

Supply of Water.

Your Committee regret to state that towards the close of the present year the "Willow Spring" has shewn symptoms of failure in its supply of water, so much so that the Superintendent was obliged for a short time to stop the use of Baths for the Patients by one half; your Committee attribute this partial failure of water to the unprecedented small quantity of rainfall during the last three years, and also to the fact that a great number of houses having deep wells have lately been built at no great distance from the Willow Spring, which (as it is supposed) have to a certain extent deprived not only the Willow Spring but the wells of several persons in the neighbourhood of their usual supply of water, indeed many of the latter, which have never before shewn any signs of failure, have during the present autumn totally failed.

In the Appendix No. 1 will be found an Abstract of the County Treasurer's Accounts during the years 1870 and 1871, as to the Loan raised for the Purchase of Additional Land.

In the Appendix No. 2 will be found a like Abstract as to the payment of Instalments of the principal monies borrowed and the interest thereof.

In the Appendix No. 3 is shown the amount expended in

Repairs, and also the Additions, Alterations, and Improvements, under sec. 38 of the Statute.

In the Appendix No. 4 will be found a General Statement and Balance Sheet of the Maintenance Account.

And in Appendix No. 5 will be found an Abstract of the Garden and Farm Account for the year 1871.

It is now the province of the Court of Quarter Session to appoint a Committee of Visitors for the ensuing year, pursuant to the 22nd sec. of the Statute.

(Signed)

PETER THOs. OUVRY,

CHAIRMAN.

MEDICAL SUPERINTENDENT'S REPORT.

To the Committee of Visitors of the Pauper Lunatic Asylum for the County of Buckingham.

Gentlemen,

I beg to submit to you the Nineteenth Annual Report of the state and progress of this Asylum, together with the accompanying statistical information respecting the Patients who have been under care and treatment during the past year.

On the 17th of December, 1870, there were in the Asylum 426 Patients, namely, 186 men and 240 women; and there have been admitted during the year 33 men and 45 women. The number under care and treatment was therefore 504,—219 men and 285 women. Nine of the admissions—3 males and 6 females—had been at some former period resident here; 5 males and 2 females were transfers from other Asylums, and one admission was a female Criminal Lunatic from the County Prison, received under the order of the Secretary of State.

The daily average number of Patients was 374,—157 men and 217 women. The highest number resident at any one time in the house was 424.

The following Table shews the mental condition of the Patients admitted during the year :—

	M.	F.	Total.
Mania	21	28	49
Ditto, with Epilepsy	3	1	4
Ditto, Puerperal	0	2	2
Ditto, with General Paresis	1	0	1
Melancholia	5	7	12
Dementia	3	5	8
Idiotcy	0	2	2

Many of the above were in a feeble and exhausted state when received, and the majority of the remainder only in moderate health.

Forty Patients were discharged as recovered during the year, of whom 17 were males and 23 females, giving a ratio of recoveries on the total admissions of 51 per cent. for each sex.

The large number of 74 Patients have been removed, relieved, or unimproved during the same period, of whom 64—35 men and 29 women—were transferred to other Asylums, principally to those near London.

Three hundred and fifty-two Patients were resident in the Asylum at the end of the year; of these 10 were private cases, 5 were Out County Patients, and the remaining 337 were chargeable to the different Unions in this County.

One male Patient escaped from a walking party who were suddenly obliged to seek shelter during a heavy thunderstorm, and he has not been re-taken. He was much improved in mind and in health, and being chargeable to one of the Metropolitan Unions, it was supposed that he had succeeded in making his way thither.

The deaths in the year numbered 38 persons, of whom 22

were males and 16 females, being at the rate of 10½ per cent. on the average numbers resident, or 7½ per cent. on the total number under treatment. In the case of the male Patients the death-rate was just double that of the females. The average age at the time of death was, for men, 54 years, and in that of the women 51 years.

The causes of death were all of an ordinary character, and in 17 cases were ascribed to disease of the cerebro-spinal system. Thoracic disease, affecting the organs of respiration and circulation, was fatal in 8 cases, while in 9 others their death was attributable to general debility and old age.

An Inquest was held on a male epileptic who was found dead in bed. The verdict returned by the Jury was that "he died from natural causes, and the visitation of God."

Two accidents have occurred to patients during the year. In the first, a female slipped down in the laundry and fractured her right clavicle. In the second case, a man, while in the act of catching a cricket-ball, tripped up and also broke his right collar-bone. Both made a satisfactory recovery.

The general sanitary condition of the Asylum has been good throughout the year, and there has been an entire absence of epidemic disease in any form.

There is nothing new to add to what has been stated in former Reports with respect to the industrial occupation of the patients. All those capable of employment have been occupied in such work as they have been able to perform, or which has been considered likely to improve their bodily or mental health.

The amusements and recreation of the patients which, equally with medical treatment, are essential to the cure of mental diseases, have been much the same as those alluded to in my Report for the preceding year. Large parties of the inmates took their usual walks twice a-week in fine weather into the neigh-

bouring country. Their weekly dances in the Recreation-hall, varied by theatrical representations, and other entertainments, have been continued as in former years.

It gives me much pleasure to acknowledge the ready and valuable assistance I have received from Dr. Alexander, the Assistant Medical Officer, and from Mr. Hollyer, the Steward, as also from the general body of attendants and servants, who have, with very few exceptions, been zealous in the discharge of their respective duties.

In concluding this Report, permit me to thank you for the many marks of confidence I have received at your hands during the past year.

I am,

GENTLEMEN,

Your obedient Servant,

J. HUMPHRY.

CHAPLAIN'S REPORT.

To the Committee of Visitors of the Pauper Lunatic Asylum, Stone.

Gentlemen,

I have the pleasure of again laying before you the annual result of the duties entrusted to me as your Chaplain.

As a summary of my Monthly Reports, it may be sufficient to state that the usual Services in the Chapel have been regularly performed on the Sabbath and on Wednesday, the visits in the Galleries paid, and the Holy Sacrament of the Lord's Supper celebrated on the four great festivals of our Church. With the exception of the Officers of your Institution, very few of the Female Patients, and not one of the Male Patients, have availed themselves of the privilege and opportunity of attending a celebration.

During the year a new Cemetery has been consecrated for the use of the Asylum. On August 2nd the Lord Bishop of Oxford attended at the Asylum, ordered Morning Prayers to be said in the Chapel, and afterwards addressed the few Male and Female Patients who were present. A procession was then formed and proceeded to the Cemetery, when the ceremony of Consecration took place. All the better class of Patients were much grieved and annoyed that they were not allowed to go to the Chapel and hear the Bishop. This, however, could not be avoided, as they could not be prepared on so short a notice after the arrival of the Bishop.

Assuring you that it is my earnest wish to forward, by every means in my power, the eternal welfare of those committed to my care,

I remain, Gentlemen,

Your obedient and faithful Servant,

CHARLES LOWNDES.

Hartwell Rectory,
Dec. 20th, 1871.

APPENDIX No. 1.
